

Canadian Products containing Mercury Regulation SOR /2014-254 Statement

The ADMEDES Group (hereinafter referred to as ADMEDES) declares that all components/parts of medical devices produced for our customers do not contain mercury.

The *Products Containing Mercury Regulations* (the Regulations) were published on November 19, 2014, under the authority of the CEPA. This domestic action builds on Canada's international leadership and commitments to reduce mercury.

The objective of the Regulations is to protect human health and the environment by reducing releases of mercury from products used in Canada to the lowest level that is technically and economically feasible.

Neither the raw material, were ADMEDES components/parts are made of, nor the packaging contains mercury. Therefore, our products do not fall under regulation SOR/2014-254.

For and on behalf of ADMEDES
Signed in Pforzheim
